

NO HONOR IN APARTHEID

WALK OUT ON ARISON

This is a historical opportunity for graduating students to demonstrate their commitment to human rights and stand in solidarity with the Palestinian students that have been personally affected by the on-going occupation of Palestine by Apartheid Israel. As the first campus that has resisted the Arison Group's influence, Mason can set a strong precedent for rejecting the Arison Group's whitewashing of Israeli Apartheid.

There is no diversity in

Segregation.

There is no freedom when expression and speech are

Suppressed.

There is no integrity in

Apartheid.
